

FISCAL NOTE

Senate Bill 52

Committee: Education Policy

Sponsor: Senator Arthur Orr

Analyst: John Friedenreich

Date: 03/20/2023

Senate Bill 52 as introduced would expand the Alabama Safe at Schools Act to include the training of certain school personnel to administrate medication to students with an adrenal insufficiency no later than the beginning of the 2024-2025 school year.

The provisions of this bill would increase the obligations of: (1) the State Department of Education and the Alabama Board of Nursing to develop guidance for the training of certain school personnel with regards to the medical needs of students with an adrenal insufficiency; (2) all local boards of education for the additional training of school nurses and unlicensed medication assistants; and (3) all public schools to provide for personnel trained in the care to students with an adrenal insufficiency for various school activities.
