**Senate Bill 20** as introduced would increase the administrative obligations of the Alabama Board of Pharmacy to register a designated representative for each manufacturer, bottler, packager, wholesale drug distributor, or other entity in the supply chain for pharmaceutical products that is a current permit holder. However, the increased obligations would be offset by new annual initial and renewal registration fees, set by the board in an amount not to exceed \$100, and new late penalty fees, also set by the board in an amount not to exceed \$50. Based on the current number of permit holders, the estimated annual receipts generated beginning January 1, 2024 is \$200,000.
