

FISCAL NOTE

House Bill 114

Committee: County and Municipal	Sponsor: Representative Matt Woods
Government	
Analyst: Peter Grogan	Date: 03/23/2023

House Bill 114 as introduced requires certain unclaimed funds in a county treasury to be forfeited and subsequently vested in the country treasury to be used solely for the maintenance, repair, and construction of roads and bridges within the county. The cumulative balance of unclaimed funds in the county treasuries is estimated to be \$14.8 million, according to information from the Department of Examiners of Public Accounts for fiscal years ranging from 2019 to 2022.

This bill could increase the obligations of a county by an undetermined amount dependent upon the costs associated with providing notice of the intended forfeiture of funds held by the county pursuant to this bill.
