SYNOPSIS:

Under existing law, determining whether an individual who performs services is an employee or a self-employed independent contractor takes into account whether the person who pays for the individual's services has the right to control only the result of the work performed or the right to exert broader control over how the work will be performed.

This bill would provide that a motor carrier's implementation of safety improvement requirements for drivers shall not be considered in determining a driver's status as an employee or an independent contractor.

A BILL  
TO BE ENTITLED  
AN ACT

Relating to labor and employment; to exclude consideration of a motor carrier's use of safety improvements, technologies, practices, and driver coaching in determining a motor carrier driver's classification as an independent contractor or an employee under state law.

BE IT ENACTED BY THE LEGISLATURE OF ALABAMA:
