Replace lines 123 through 131 on page 5 with the following:

7 (g) In considering approving a storage facility 8 to be used for the storage and sequestration of carbon dioxide pursuant to this division, the board shall 9 10 consider any competing rights of all separately owned 11 estates in lands potentially affected by the storage facility, giving due consideration of competing rights 12 13 as to existing or future uses by pore space, surface, 14 and mineral owners that may be affected.

(h) Other than as may regard a claim to an
ownership interest in pore space, nothing in this
division shall be construed to change, alter,
diminish, or in any way affect the statutory or common
law as of October 1, 2024, as it relates to the rights
belonging to surface and mineral estates.
