- 127 45-37-123.191, 45-37-123.194, and 45-37-123.195 of the Code of
- 128 Alabama 1975, are amended to read as follows:
- 129 "\$45-37-123.01
- For the purposes of this part, the following terms
- 131 shall have the following meanings:
- 132 (1) ACT. The act adding this part, to be called the
- 133 General Retirement System for Employees of Jefferson County
- 134 Act.
- 135 (2) ACTIVE MEMBER. An individual who currently is
- 136 employed by the county or other entities set forth in
- 137 subdivision (20) and is making employee contributions to the
- 138 system pursuant to Section 45-37-123.82.
- 139 (3) ACTUARIAL EQUIVALENT. Effective July 30, 1984, or
- 140 such other dates as set forth in Exhibit A to the plan

- 141 document, which is maintained in the office of the pension
- 142 board, a form of benefit differing in time, period, or manner
- of payment from a specific benefit provided under the plan but
- 144 having the same value when computed using the mortality
- 145 tables, the interest rate, and any other assumptions last
- adopted by the pension board, which assumptions shall clearly
- 147 preclude any discretion in the determination of the amount of
- 148 a member's benefit.
- 149 (4) ACTUARIAL GAIN. As defined in Section
- 150 45-37-123.106(f)(1).
- 151 (5) ANNUITY STARTING DATE. As used in Subpart 6 and in
- 152 Section 45-37-123.106, means, with respect to any member, the
- 153 first day of the first period for which an amount is paid as
- an annuity, or, in the case of a benefit not payable in the
- form of an annuity, the first day on which all events have
- 156 occurred which entitles the member to such benefit.
- 157 (6) BASIC AVERAGE SALARY. Generally means, effective as
- of February 1, 2010, the monthly compensation of a member
- averaged over the period of 36 consecutive months of paid
- 160 membership time during which such member's average monthly
- 161 compensation was higher than any other period of 36
- 162 consecutive months of paid membership time. For example, if a
- member terminated employment on June 20, 2010, and his or her
- 164 highest consecutive 36 month 36-month period ends on the
- 165 member's date of termination of employment, then the measuring
- 166 period for determining basic average salary would be from June
- 167 21, 2007, through June 20, 2010. The following rules shall
- 168 apply in calculating basic average salary:

- a. Daily Compensation Calculation. Subject to the additional rules stated in this subdivision, the compensation earned in each year, or portion of a year, during the 36-month period shall be determined on a daily basis. The total of the compensation earned in each applicable year, or portion thereof, shall be added together and then divided by 36 to arrive at the member's basic average salary. If the foregoing process is not workable in some situations, then the pension board shall approve a different method which is reasonable given the terms of the act and the individual circumstances.
- b. Use of Unpaid Membership Time. The compensation paid to a member during unpaid membership time shall only be considered in determining the member's basic average salary for periods of employment prior to August 16, 1996.
- c. Tacking of Nonconsecutive Paid Membership Time. Separate periods of paid membership time may be tacked and considered as consecutive if the member does not have any paid membership time between the periods so tacked. For example, if the member did not have any paid membership time between two periods of paid membership time due to a leave of absence, the leave of absence would be ignored in calculating basic average salary.
- d. Post-termination. Compensation. Compensation paid subsequent to termination of participation in the system pursuant to Section 45-37-123.52, due to ineligibility, shall not be recognized in computing basic average salary. However, notwithstanding Notwithstanding any provisions of this plan to the contrary, a member's final paycheck from the county shall

- be counted in computing a member's basic average salary, but only to the extent that such paycheck constitutes compensation, and the highest consecutive 36 month period otherwise would end on the date of the member's termination of employment.
- 202 (7) BENEFICIARY. The <u>person</u> individual, or entity,
 203 designated as provided in Section 45-37-123.103(d) to receive
 204 the benefits which are payable under the plan upon or after
 205 the death of a member.

1785	determined under subsection (c). The pension board may require
1786	any member receiving disability retirement benefits to submit
1787	to a medical examination by the medical advisor. If the member
1788	refuses to undergo the medical examination ordered by the
1789	pension board, the member's disability retirement benefits may

Payment intervals are the periods for which payments are received, such as, bimonthly, monthly, semi-annually, or annually. All of the member's benefit accruals as of the last day of the first distribution calendar year shall be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

b. In the case of a single sum distribution of a member's entire accrued benefit during a distribution calendar year, the amount that is the required minimum distribution for the distribution calendar year, and thus not eligible for rollover under § 402(c), Internal Revenue Code, is determined under this paragraph. The portion of the single sum distribution that is a required minimum distribution is determined by treating the single sum distribution as a distribution from an individual account plan and treating the amount of the single sum distribution as the member's account balance as of the end of the relevant valuation calendar year. If the single sum distribution is being made in the calendar year containing the required beginning date and the required minimum distribution for the member's first distribution calendar year has not been distributed, the portion of the single sum distribution that represents the required minimum

2453 distribution for the member's first and second distribution 2454 calendar year is not eligible for rollover.

- (3) ADDITIONAL ACCRUALS AFTER FIRST DISTRIBUTION CALENDAR YEAR. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year shall be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues. Notwithstanding the preceding, the plan shall not fail to satisfy the requirements of this subdivision and § 401(a)(9), Internal Revenue Code, merely because there is an administrative delay in the commencement of the distribution of the additional benefits accrued in a calendar year, provided that the actual payment of such amount commences as soon as practicable. However, payment shall commence no later than the end of the first calendar year following the calendar year in which the additional benefit accrues, and the total amount paid during such first calendar year shall be no less than the total amount that was required to be paid during that year under this subdivision.
- 2473 (4) DEATH OF MEMBER AFTER DISTRIBUTIONS BEGIN. If a
 2474 member dies after distribution of the member's interest begins
 2475 in the form of an annuity meeting the requirements of this
 2476 section, then the remaining portion of the member's interest
 2477 shall continue to be distributed over the remaining period
 2478 over which distributions commenced.
- 2479 (d) Requirements for annuity distributions that 2480 commence during member's lifetime.

2481	(1) JOINT LIFE ANNUITIES WHERE THE <u>DESIGNATED</u>
2482	BENEFICIARY IS THE MEMBER'S SPOUSE. If distributions commence
2483	under a distribution option that is in the form of a joint and
2484	survivor annuity for the joint lives of the member and the
2485	member's spouse, the minimum distribution incidental benefit
2486	requirement shall not be satisfied as of the date
2487	distributions commence unless, under the distribution option,
2488	the periodic annuity payment payable to the survivor does not
2489	at any time on and after the member's required beginning date
2490	exceed the annuity payable to the member. In the case of an
2491	annuity that provides for increasing payments, the requirement
2492	of this subdivision shall not be violated merely because
2493	benefit payments to the <u>designated</u> beneficiary increase,
2494	provided the increase is determined in the same manner for the
2495	member and the <u>designated</u> beneficiary. If the form of
2496	distribution combines a joint and survivor annuity for the
2497	joint lives of the member and the member's spouse and a period
2498	certain annuity, the preceding requirements shall apply to
2499	annuity payments to be made to the designated beneficiary
2500	after the expiration of the period certain.

(2) JOINT LIFE ANNUITIES WHERE THE DESIGNATED BENEFICIARY IS NOT THE MEMBER'S SPOUSE. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a designated beneficiary other than the member's spouse, the 2506 minimum distribution incidental benefit requirement shall not be satisfied as of the date distributions commence unless 2508 under the distribution option, the annuity payments to be made

2509 on and after the member's required beginning date shall 2510 satisfy the conditions of this subdivision. The periodic 2511 annuity payment payable to the survivor shall not at any time 2512 on and after the member's required beginning date exceed the 2513 applicable percentage of the annuity payment payable to the 2514 member using the table set forth in Treasury Regulation § 2515 1.401(a)(9)-6, Q & A-2(c)(2). The applicable percentage is 2516 based on the adjusted member/designated beneficiary age 2517 difference. The adjusted member/designated beneficiary age 2518 difference is determined by first calculating the excess of 2519 the age of the member over the age of the designated 2520 beneficiary based on their ages on their birthdays in a calendar year. If the member is younger than age 70, the age 2521 2522 difference determined in the previous sentence is reduced by 2523 the number of years that the member is younger than age 70 on the member's birthday in the calendar year that contains the 2524 2525 annuity starting date. In the case of an annuity that provides 2526 for increasing payments, the requirement of this subdivision 2527 shall not be violated merely because benefit payments to the 2528 designated beneficiary increase, provided the increase is 2529 determined in the same manner for the member and the 2530 designated beneficiary. If the form of distribution combines a 2531 joint and survivor annuity for the joint lives of the member 2532 and a non-spouse designated beneficiary and a period 2533 certain annuity, the preceding requirements shall apply to 2534 annuity payments to be made to the designated beneficiary after the expiration of the period certain. 2535

(3) PERIOD CERTAIN ANNUITIES. Unless the member's

2537	spouse is the sole designated beneficiary and the form of
2538	distribution is a period certain and no life annuity, the
2539	period certain for an annuity distribution commencing during
2540	the member's lifetime may not exceed the applicable
2541	distribution period for the member under the Uniform Lifetime
2542	Table set forth in Treasury Regulation § 1.401(a)(9)-9 for the
2543	calendar year that contains the annuity starting date. If the
2544	annuity starting date precedes the year in which the member
2545	reaches age 70, the applicable distribution period for the
2546	member is the distribution period for age 70 under the Uniform
2547	Lifetime Table set forth in Treasury Regulation §
2548	1.401(a)(9)-9 plus the excess of 70 over the age of the member
2549	as of the member's birthday in the year that contains the
2550	annuity starting date. If the member's spouse is the member's
2551	sole designated beneficiary and the form of distribution is a
2552	period certain and no life annuity, the period certain may not
2553	exceed the longer of the member's applicable distribution
2554	period, as determined under this subdivision, or the joint
2555	life and last survivor expectancy of the member and the
2556	member's spouse as determined under the Joint and Last
2557	Survivor Table set forth in Treasury Regulation §
2558	1.401(a)(9)-9, using the member's and spouse's attained ages
2559	as of the member's and spouse's birthdays in the calendar year
2560	that contains the annuity starting date.

- 2561 (e) Requirements for minimum distributions where member 2562 dies before date distributions begin.
- 2563 (1) MEMBER SURVIVED BY DESIGNATED BENEFICIARY AND LIFE 2564 EXPECTANCY RULE.

At the election of the member or, if no election is made by the member, then at the election of the member's designated beneficiary, if the member dies before the date distribution of his or her interest begins and there is a designated beneficiary, the member's entire interest shall be distributed, beginning no later than the time described in paragraph a. or b. of subdivision (2) of subsection (b), over the life of the designated beneficiary or over a period certain not exceeding:

- a. Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the <u>designated</u> beneficiary's age as of the <u>designated</u> beneficiary's birthday in the calendar year immediately following the calendar year of the member's death; or
- b. If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the <u>designated</u> beneficiary's age as of the <u>designated</u> beneficiary's birthday in the calendar year that contains the annuity starting date.
- (2) MEMBER SURVIVED BY DESIGNATED BENEFICIARY AND FIVE-YEAR RULE. At the election of the member or, if no election is made by the member, then at the election of the member's designated beneficiary, if the member dies before distributions begin and there is a designated beneficiary, then the member's entire interest shall be distributed to the designated beneficiary by December 31st of the calendar year containing the fifth anniversary of the member's death. - 2601 (4) DEATH OF SURVIVING SPOUSE BEFORE DISTRIBUTIONS TO SURVIVING SPOUSE BEGIN. If the member dies before the date 2602 2603 distribution of his or her interest begins, the member's surviving spouse is the member's sole designated beneficiary, 2604 2605 and the surviving spouse dies before distributions to the 2606 surviving spouse begin, this subsection shall apply as if the 2607 surviving spouse were the member, except that the time by 2608 which distributions shall begin shall be determined without 2609 regard to paragraph a. of subdivision (2) of subsection (b).

- 2611 (1) ACTUARIAL GAIN. The difference between an amount 2612 determined using the actuarial assumptions, such as, 2613 investment return, mortality, expense, and other similar 2614 assumptions, used to calculate the initial payments before 2615 adjustment for any increases and the amount determined under 2616 the actual experience with respect to those factors. Actuarial 2617 gain also includes differences between the amount determined 2618 using actuarial assumptions when an annuity was purchased or 2619 commenced and such amount determined using actuarial 2620 assumptions used in calculating payments at the time the

- 2629 (3) DISTRIBUTION CALENDAR YEAR. A calendar year for 2630 which a minimum distribution is required. For distributions 2631 beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the 2632 2633 calendar year which contains the member's required beginning 2634 date. For distributions beginning after the member's death, 2635 the first distribution calendar year is the calendar year in 2636 which distributions are required to begin pursuant to 2637 subsection (b).
 - (4) ELIGIBLE COST-OF-LIVING INDEX. An index described below:
 - a. A consumer price index that is based on prices of all items, or all items excluding food and energy, and issued by the Bureau of Labor Statistics, including an index for a specific population, such as urban consumers or urban wage earners and clerical workers, and an index for a geographic area or areas, such as a given metropolitan area or state; or
- 2646 b. A percentage adjustment based on a cost-of-living
 2647 index described in paragraph a., or a fixed percentage, if
 2648 less. In any year when the cost-of-living index is lower than

- the fixed percentage, the fixed percentage may be treated as an increase in an eligible cost-of-living index, provided it does not exceed the sum of:
 - 1. The cost-of-living index for that year; and
- 2. The accumulated excess of the annual cost-of-living index from each prior year over the fixed annual percentage used in that year, reduced by any amount previously utilized under this paragraph.
- 2657 c. A percentage adjustment based on the increase in
 2658 compensation for the position held by the member at the time

contrary that would otherwise limit a distributee's election
under this section, a distributee, at the time and in the
manner prescribed by the pension board, may elect to have any
portion of an eligible rollover distribution that is equal to
at least two hundred dollars (\$200) paid directly to an
eligible retirement plan specified by the distributee in a
direct rollover.

- 2684 b. For purposes of this subdivision, the following definitions shall apply:
- 2686 1.(i) An eligible rollover distribution is any 2687 distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover 2688 2689 distribution does not include: Any distribution that is one of 2690 a series of substantially equal periodic payments, not less 2691 frequently than annually, made for the life, or life expectancy, of the distributee or the joint lives, or joint 2692 2693 life expectancies, of the distributee and the distributee's 2694 designated beneficiary, or for a specified period of 10 years 2695 or more; any distribution to the extent such distribution is 2696 required under § 401(a)(9), Internal Revenue Code; the portion 2697 of any other distribution that is not includible in gross 2698 income, determined without regard to the exclusion for net 2699 unrealized appreciation with respect to employer securities; 2700 any hardship distribution; and any other distribution that is 2701 reasonably expected to total less than two hundred dollars 2702 (\$200) during a year.
- 2703 (ii) Notwithstanding the above, with respect to 2704 distributions made after December 31, 2001, a portion of a

2705 distribution shall not fail to be an eligible rollover 2706 distribution merely because the portion consists of aftertax 2707 after-tax employee contributions which are not includible in 2708 gross income. However, such portion may be transferred only to 2709 an individual retirement account or annuity described in § 2710 408(a) or (b), Internal Revenue Code, or to a qualified trust 2711 described in § 401(a), Internal Revenue Code, or annuity 2712 contract described in § 403(a), Internal Revenue Code, that 2713 agrees to separately account for amounts so transferred, 2714 including separately accounting for the portion of such 2715 distribution which is includible in gross income and the portion of such distribution which is not so includible. 2716

- 2717 2. With respect to distributions made after December 2718 31, 2001, an eligible retirement plan is an individual 2719 retirement account described in § 408(a), Internal Revenue Code, an individual retirement annuity described in § 408(b), 2720 2721 Internal Revenue Code, other than an endowment contract, a 2722 qualified trust described in § 401(a), Internal Revenue Code, 2723 which is exempt from tax under § 501(a), Internal Revenue 2724 Code, that accepts the distributee's eligible rollover 2725 distribution, an annuity plan described in § 403(a), Internal 2726 Revenue Code, an eligible deferred compensation plan described 2727 in § 457(b), Internal Revenue Code, which is maintained by an 2728 eligible employer described in § 457(e)(1)(A), Internal 2729 Revenue Code, and an annuity contract described in § 403(b), Internal Revenue Code, that accepts the distributee's eligible 2730 rollover distribution. 2731

If a non-spouse designated 2754 beneficiary receives a distribution from the plan, the 2755 distribution is not eligible for a 60-day, non-direct 2756 rollover.
- b. If the member's named <u>designated</u> beneficiary is a trust, the plan may make a direct trustee-to-trustee transfer to an individual retirement plan on behalf of the trust, provided the trust satisfies the requirements to be a

- designated beneficiary within the meaning of § 401(a)(9)(E),

 Internal Revenue Code.
- 2763 c. A non-spouse designated beneficiary may not roll 2764 over an amount which is a required minimum distribution, as 2765 determined under applicable regulations and other Internal Revenue Service quidance. If the member dies before the 2766 2767 member's required beginning date and the non-spouse designated 2768 beneficiary rolls over to an individual retirement plan the 2769 maximum amount eligible for rollover, the non-spouse designated beneficiary may elect to use either the five-year 2770 2771 rule or the life expectancy rule, pursuant to Treasury 2772 Regulation § 1.401(a)(9)-3, A-4(c), in determining the 2773 required minimum distributions from the individual retirement 2774 plan that receives the non-spouse designated beneficiary's 2775 distribution.

 2785 defined benefit dollar limitation of Section 45-37-123.131(a)

Notwithstanding 2790 the foregoing, no adjustment shall be made to the defined 2791 benefit dollar limitation for a distribution on account of a 2792 member becoming disabled by reason of personal injuries or 2793 sickness, or as a result of the death of a member. For 2794 purposes of this subsection, a year of participation means 2795 each accrual computation period for which the following 2796 conditions are met: The member is credited with a period of 2797 service for benefit accrual purposes, required under the terms 2798 of the plan in order to accrue a benefit for the accrual 2799 computation period, and the member is included as a member under the eligibility provisions of the plan for at least one 2800 day of the accrual computation period. If these two conditions 2801 2802 are met, the portion of a year of participation credited to 2803 the member shall equal the amount of benefit accrual service credited to the member for such accrual computation period. A 2804 2805 member who is permanently and totally disabled within the 2806 meaning of § 415(c)(3)(C)(i), Internal Revenue Code, for an 2807 accrual computation period shall receive a year of 2808 participation with respect to the period. In no event shall 2809 more than one year of participation be credited for any 2810 12-month period.

(b) Adjustment of defined benefit dollar limitation for commencement before age 62. Effective for benefits commencing in limitation years ending after December 31, 2001, the defined benefit dollar limitation shall be adjusted if the annuity starting date of the member's benefit is before age 62.

- 2817 (1) LIMITATION YEARS BEGINNING BEFORE JULY 1, 2007. If 2818 the annuity starting date for the member's benefit is prior to 2819 age 62 and occurs in a limitation year beginning before July 2820 1, 2007, the defined benefit dollar limitation for the 2821 member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity 2822 2823 commencing at the member's annuity starting date that is the 2824 actuarial equivalent of the defined benefit dollar limitation 2825 with actuarial equivalence computed using whichever of the following produces the smaller annual amount: The applicable 2826 2827 interest rate and applicable mortality table, or other tabular factor, as defined in § 417(e)(3), Internal Revenue Code; or a 2828 2829 five percent interest rate assumption and the applicable 2830 mortality table as defined in § 417(e)(3), Internal Revenue 2831 Code.
- 2832 (2) LIMITATION YEARS BEGINNING ON OR AFTER JULY 1, 2833 2007.
- 2834 a. Plan Does Not Have Immediately Commencing Straight 2835 Life Annuity Payable at Both Age 62 and the Age of Benefit 2836 Commencement. If the annuity starting date for the member's 2837 benefit is prior to age 62 and occurs in a limitation year 2838 beginning on or after July 1, 2007, and the plan does not have 2839 an immediately commencing straight life annuity payable at 2840 both age 62 and the age of benefit commencement, the defined 2841 benefit dollar limitation for the member's annuity starting 2842 date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity 2843 2844 starting date that is the actuarial equivalent of the defined

2845	benefit dollar limitation with actuarial equivalence computed
2846	using a five percent interest rate assumption and the
2847	applicable mortality table under Treasury Regulation §
2848	1.417(e)-1(d)(2), or the applicable mortality table as
2849	required by law, that is effective for that annuity starting

2851	calendar months as of the annuity starting date.

- 2852 b. Plan Has Immediately Commencing Straight Life 2853 Annuity Payable at Both Age 62 and the Age of Benefit 2854 Commencement. If the annuity starting date for the member's 2855 benefit is prior to age 62 and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an 2856 2857 immediately commencing straight life annuity payable at both 2858 age 62 and the age of benefit commencement, the defined 2859 benefit dollar limitation for the member's annuity starting date is the lesser of the limitation determined under 2860 2861 paragraph a. and the defined benefit dollar limitation 2862 multiplied by the ratio of the annual amount of the 2863 immediately commencing straight life annuity under the plan at 2864 the member's annuity starting date to the annual amount of the 2865 immediately commencing straight life annuity under the plan at 2866 age 62, both determined without applying the limitations of 2867 this subpart.
- 2868 (3) MORTALITY ADJUSTMENTS. Notwithstanding the other 2869 requirements of this subsection, no adjustment shall be made 2870 to the defined benefit dollar limitation to reflect the 2871 probability of a member's death between the annuity starting 2872 date and age 62 if benefits are not forfeited upon the death

2873 of the member prior to the annuity starting date. To the 2874 extent benefits are forfeited upon death before the annuity 2875 starting date, such an adjustment shall be made. For this 2876 purpose, no forfeiture shall be treated as occurring upon the 2877 member's death if the plan does not charge members for 2878 providing a qualified preretirement survivor annuity, as 2879 defined in § 417(c), Internal Revenue Code, upon the member's 2880 death.

- 2912 (1) BENEFIT FORMS NOT SUBJECT TO § 417(e)(3), INTERNAL 2913 REVENUE CODE. The straight life annuity that is actuarially 2914 equivalent to the member's form of benefit shall be determined 2915 under this subdivision if the form of the member's benefit is 2916 either a nondecreasing annuity, other than a straight life 2917 annuity, payable for a period of not less than the life of the 2918 member, or, in the case of a qualified preretirement survivor 2919 annuity, the life of the surviving spouse, or an annuity that 2920 decreases during the life of the member merely because of the 2921 death of the survivor annuitant, but only if the reduction is 2922 not below 50 percent of the benefit payable before the death 2923 of the survivor annuitant, or the cessation or reduction of 2924 Social Security supplements or qualified disability payments, 2925 as defined in § 401(a)(11), Internal Revenue Code.
- a. Limitation Years Beginning Before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the

- annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:
- 2933 1. The applicable interest rate and applicable
 2934 mortality table, or other tabular factor, as defined in §
 2935 417(e)(3), Internal Revenue Code, for adjusting benefits in
 2936 the same form; or

- 2. The annual amount of the straight life annuity
 commencing at the same annuity starting date that has the same
 actuarial present value as the member's form of benefit,
 computed using a five percent interest rate assumption and the
 applicable mortality table as described in Treasury Regulation
 \$ 1.417(e)-1(d)(2), or the applicable mortality table as
 required by law, for that annuity starting date.
- 2954 (2) BENEFIT FORMS SUBJECT TO § 417(e)(3) INTERNAL

- 2. The annual amount of the straight life annuity
 commencing at the same annuity starting date that has the same
 actuarial present value as the member's form of benefit,
 computed using a five and one-half percent interest rate
 assumption and the applicable mortality table for the
 distribution under Treasury Regulation § 1.417(e)-1(d)(2), or
 the applicable mortality table as required by law; or
- 3. The annual amount of the straight life annuity
 commencing at the same annuity starting date that has the same

- 3013 Internal Revenue Code, and Treasury Regulation § 3014 1.415(b)-1(c)(4)(1)(B), and the value of postretirement 3015 cost-of-living increases made in accordance with § 415(d), 3016 Internal Revenue Code, and Treasury Regulation § 3017 1.415-3(c)(2)(iii). legislative act, any change in the pension rate may apply to all pensions payable under the plan, including pensions granted prior to the effective date of the change in the pension rate. This subsection shall apply whether such change results in the pension benefit being increased or decreased. Accordingly, any increase or decrease in the pension rate may be applicable not only to persons who have not yet begun to receive their pension benefits, but also to persons who have begun receiving their pensions benefits. A change in the pension rate means any modification to the definition of basic average salary or other change to the formula for determining the amount of a pension benefit.

(c) (b) Any amendment which affects the rights, duties, or responsibilities of the trustee may only be made with the trustee's written consent. Any such amendment shall become effective as provided therein upon its execution.
